

Capabilities Statement

Public Sector

National Capabilities

TridentCare is the largest national provider of portable x-ray, ultrasound, teleradiology, and laboratory services in the public sector.

Licensed to operate in 44 states, their geographic scope, scalable operating platform and superior logistical capabilities enables TridentCare to provide services to a variety of demographics and government sectors.

TridentCare is honored to be led by a Veteran CEO and proudly supports the hiring of both Veterans as well as Military spouses.

For nearly four decades, their dedicated team of 3,500+ employees support a care delivery model that provides a safe, convenient, and cost-effective alternative to traditional diagnostic services conducted in a hospital or urgent care setting. By utilizing the latest and most advanced direct-radiographical technology for mobile x-ray, TridentCare is able to produce accurate images that can be reviewed by their board certified interpreting radiologists and cardiologists within seconds. Guaranteed rapid turnaround of results on a 24/7/365 basis.

Laser Focused

Every TridentCare client is supported by a dedicated team of specialists who manage all aspects of scheduling, staffing, supplies and execution.

Our suite of onsite, mobile service offerings include:

- Digital Imaging
- Clinical Laboratory Testing
- COVID 19 Testing
- Vascular Infusion Therapy
- Oxygen Therapy

Our clients rely on us to ensure:

- Continuity of Care
- Positive Patient Outcomes
- Cost Benefits
- Efficient and Secure Processes

Experience

Our proven history continues to keep TridentCare at the forefront of emergent and non-emergent missions.

We have become a preferred national provider of choice for:

- The Department of Health and Human Services
- The Department of Veterans Affairs
- The Department of Defense
- The Department of Justice
- The Social Security Administration

Immediate Deployment

TridentCare focuses on providing superior clinical outcomes during a time of crisis. We pride ourselves in our ability to stand up an operation efficiently and expeditiously. Our capability to immediately deploy staff and supplies, allows our clients to be fully operational within 72 hours.

Our clients trust us to employ and deploy:

- Radiology Technologists
- Ultrasound Sonographers
- Laboratory Technicians
- Vascular Nurses

As a full service provider, our turn key solutions position our clients to execute with perfection.

Operational infrastructure is our strength.

- Critical Logistics Infrastructure
- Crucial Reporting Tools
- Certified Testing Equipment
- Compliant and Timely Resulting

TridentCare has strong financial stability and expertise to support and sustain any operation of any size regardless of location and duration.

Mission critical success is what we do.
