

# TridentCare

## Capabilities Statement

TridentCare is the only mobile clinical and diagnostic services provider with a national scale. Over the course of 40 years, TridentCare has performed millions of mobile diagnostic exams and lab tests and has processed hundreds of thousands of COVID-19 tests since the early stages of the pandemic.

Our clinical approach blends expert clinicians with advanced technology that meet the unique requirements of our client. Our commitment to quality is unmatched.

TridentCare's high-quality clinical services are delivered expeditiously to patients safely and efficiently wherever they are, at almost any location.

Digital Imaging

Staffing Models

Laboratory Services

COVID-19 Testing

Vascular Specialists

Nurse Practitioners

We use advanced technology coupled with our highly skilled workforce to provide:

Consistent Clinical Outcomes

Cost Effectiveness

Continuity of Care

Positive Patient Experiences

### National Capabilities

TridentCare employs and deploys experienced medical professionals to deliver quality, consistent service, leveraging protocols and training supported by experienced leadership and rigorous quality assurance, nationally. This helps our clients deliver effective medical services and provide superior outcomes for their patients.

As a national full-service provider with a JHACO certification, TridentCare brings added value:

- Critical Logistics Infrastructure
- Administration Support
- Testing Equipment
- Timely Results
- PPE and Supplies
- Crucial Reporting Analysis

TridentCare's operational infrastructure allows for immediate deployment of staff and supplies.

TridentCare has the financial resources and operational know-how to quickly stand-up and sustain current operations and beyond.

TridentCare offers clients stability, consistency, and reliability for mission critical success.
