

# TridentCare

## CLINICAL RESEARCH TRIALS

As a Clinical Research Organization, the last thing you should be concerned about is not having your diagnostic testing available where your participants are. **We are your Solution.**

### CONVENIENT ON-SITE SERVICES

TridentCare is the industry leader of mobile ON-SITE imaging services for Clinical Research Organizations. Whether your clinical trial is being conducted in a centralized location or whether it is a decentralized study with participants in their home setting, we are your solution.

We work directly with your Medical Director or principal investigator in offering comprehensive mobile imaging services eliminating the need for your participants to travel to different providers. Our team is comprised of professionally-trained clinicians who focus on performing precise diagnostic exams coupled with providing a positive clinical experience.

### INNOVATIVE, ADVANCED TECHNOLOGIES

TridentCare's highly-qualified personnel coupled with advanced digital capabilities has put us at the forefront of the mobile diagnostic industry. With a national presence, we continue to be the preferred clinical provider for CRO's across the country.

### EFFICIENCY AND SECURITY

TridentConnect, our proprietary digital portal, allows exams to be ordered 24/7 from the convenience of a Smartphone, laptop or tablet. Your staff can quickly view exam history and results all in one convenient, HIPAA-compliant platform.

### RESPONSIVENESS, RELIABILITY, AND CONVENIENCE

Our convenient ON-SITE services provide the flexibility and planning necessary to meet the needs of you as the investigator and your participants.

Commitment is our priority. Whether a short-term, single trial or an ongoing recurring trial, you tell us when and where, and we'll be there.

## Services
